If you or a family member believe you may have been exposed to the Coronavirus call the County Health Department at 1-800-222-1222 or 1-800-962-1253. In addition, one can call 2-1-1, or Text: NJCOVID to 898-211 or Text: your zip code to 898-211 for live assistance. Services of 2-1-1 are available 24hrs/7 days a week.

If you or a loved one have flu-like symptoms including a fever, dry cough or shortness of breath contact your usual health care provider first. Do not show up at a clinic, urgent care or doctor office with these symptoms without calling first.

An additional way to contact your health care provider is through the patient portals by computer or on your mobile phone. If you have forgotten your log in information here are links to retrieve that information:

**COOPER Clients/Patients:** “At this time, Cooper’s lab is not running tests for COVID19. However, we are expediting testing for Cooper Patients who meet testing criteria and have an order from a Cooper physician. We have a drive up location for those Cooper Patients to collect samples for testing”

To retrieve your “My Cooper” log in information or create a new one:
https://my.cooperhealth.org/mychart/recoverlogin.asp

**Virtua Clients/patients:** No Testing is being conducted at Urgent Care Centers.
Call or send a message through “My Virtua” to your healthcare provider to be screened for COVID19. If testing is warranted, the doctor will tell you where to go to get tested.
To retrieve your “My Virtua” electronic record log in information:
https://secure.myvirtua.org/mychart/Authentication/Login

**Jefferson** – existing patients/clients of Jefferson doctors may call 1-844-542-2273 to be screened for COVID19. If testing necessary, they will tell you where to go to get tested.

**CHOP Primary or Pediatric care NJ** –
Call or send message via MYCHOP®. A nurse will contact you to schedule a telehealth visit. You must have a device with a camera.
To sign up or retrieve log in information for MYCHOP® (Children’s Hospital of Pennsylvania):
https://mychop.chop.edu/MyChart/?source=i-want-to

If testing is necessary, they will send the request directly to one of the current 4 testing sites for you to receive the test.

Stay safe & healthy! As school nurse I will continue to monitor testing and screening availability and update this information.
June Flanagan, RN, BSN, NJ- CSN

In the meantime, wash your hands, clean frequently touched surfaces often, limit contact with others, practice social distancing 6-feet distance apart, and if you have coronavirus isolate away from others in the household.
